Product Description

SnowEx Heavy-Duty Straight Blade Truck Snow Plow

When the job demands more, you can rely on your SnowEx® Heavy-Duty snow plow—optimized for contractors running larger vehicles who need a plow that can keep up. These straight-blade plows power through heavy snow with a massive 31-inch steel blade and a formed base channel for maximum stability. With reinforced vertical ribs, angled Power Ribs, and a massive quad design, this plow is engineered to handle the most punishing winter conditions without twisting under the weight of the snow and the brute force of the vehicle. This is how you dominate, on your own terms.

- Blade Width: 7' 6", 8', 8' 6" & 9'
- Fits: Class 2-5 Trucks & 3-4 Series Tractors
- Moldboard: Powder-Coated Steel
