Product Description

SnowEx RDV™ V-Blade Truck Snow Plow

The SnowEx® RDV™ v-plow is engineered specifically for half-ton trucks, packing the power of a professional-grade plow into a lightweight, high-strength frame. Built with low-alloy steel that's stronger than traditional steel, these plows are ready to dominate any job. Available in both powder-coated steel and stainless steel, they're designed for a perfect fit on the most popular truck models. This is how you clear snow more quickly to own the winter.
